Innovative technologist and creative strategist with over 15 years of experience in developing cutting-edge digital solutions. Expertise spans Web3 technology, product development, immersive experiences, and assistive technology. Adept at blending creativity with technical know-how to deliver impactful projects across industries, from decentralized platforms to interactive advertising. Passionate about using technology to drive meaningful change and create engaging user experiences.

PROFESSIONAL EXPERIENCE

Growth & Partnerships | Ambire Wallet, Austin, TX — (Aug 2022 - Aug 2024)

- Host and Producer of "Web3 on Fire", a podcast and newsletter covering the latest innovations in Web3 technologies. Managed all aspects of production, including scripting, hosting, video creation, and decentralized distribution across platforms like pods.media and tape.xyz.
- Led community-focused initiatives such as reward-based quests, POAP campaigns, and Discord events, driving user engagement and growing the Ambire Wallet community.
- Established strategic partnerships with platforms like Tide Protocol, Hats Protocol, Pods.media, Jokerace.io, and Rehash Podcast, enhancing brand visibility and Web3 community engagement.
- Pioneered Web3 integration through Lens & Farcast Protocol, optimizing community moderation and engagement strategies for decentralized platforms.

Go to Market & Growth Lead | Samurai AI, Austin, TX — (Sep 2020 - Sep 2022)

- Led a comprehensive rebranding initiative, including the development of a lead-generating website integrated with Hubspot CRM to enhance analytics and user engagement.
- Cultivated partnerships with major platforms (Discord, Zoom, WebEx) to expand product reach and foster community collaboration

Manager of Creative Technology Team One, Playa Vista, CA — (Mar 2014 - Sep 2018)

- Co-created the award-winning Lexus CinePrint™ campaign, integrating video and audio with print media to create a groundbreaking, multi-sensory advertising experience. Earned the FWA Mobile Site of the Day Award.
- Developed the Visceral Reality project, an experimental VR experience that integrated sensory stimuli like temperature, scent, and airflow to create immersive virtual environments, setting new standards in VR design.
- Initiated socially responsible projects that led to successful business ventures, enhancing community outreach and support initiatives.

Creative Technologist We Creative/Coactlab, Venice Beach, CA — (June 2012 - Feb 2014)

- Collaborated with developers and designers to create high-quality web applications, while executing marketing campaigns that engaged diverse market segments.
- Leveraged advanced analytics and social media strategies to enhance campaign performance and client relationships.
